

Bug ID: 005

Title: Inadequate color scheme for range elements (age and weight sliders)

Description: The color scheme of the range elements (age and weight sliders) does not match the overall color scheme of the website. This inconsistency affects the visual harmony and user experience.

Steps to Reproduce:

1. Open the character creation page.
2. Locate the wiek and waga sliders.
3. Observe the colors used for these sliders.

Expected Behavior: The colors of the age and weight sliders should be consistent with the overall color scheme of the website, providing a harmonious and visually appealing experience.

Actual Behavior: The colors of the age and weight sliders are not aligned with the website's color scheme, creating a visual disconnect.

Environment:

- Browser: Google Chrome 91.0.4472.124
- Operating System: Windows 10
- Device: Dell XPS 13 Laptop

Attachments: N/A

Priority: Low

Additional Information: The current colors of the range sliders stand out in a way that does not complement the website's aesthetic. Updating these colors to match the site's palette will improve the overall look and feel of the character creation page.
